REMARKS

 50X1-HUM

1. On the morning of 15 August 1951, a unit of troops wearing black service color was entrained at the Wittenberg (H 52/W 37) railroad station. The vehicles hauling this unit came from the barracks installation which is located northeast of Wittenberg. They included jeep and trucks
2. At noon of the same day, engineer equipment was also loaded at Wittenberg. The equipment included several pontoons on trucks, 3 motorboats of about 6 meters length and other trucks
3. On 18 August, about 300 troops wearing red-bordered black epaulets with tank insignia were quartered in the Arado plant, Wittenberg. A German living nearby stated that some of the troops stationed there were at the troop training grounds. A total of about 120 troops, including some engaged in training, were seen in the plant area on that day. The tank garages were closed.
